

## Employment opportunities

Improve your confidence with numbers

Numeracy is a valuable life skill which can improve your everyday life, from understanding household finances, helping children with homework, or something specific to your line of work. Improved numeracy can also help with finding better work.

# Boost your confidence

Is numeracy a challenge in everyday life and preventing you from taking up work opportunities? 'Addition to Employment' is a free face-to-face course which runs over nine days. The course aims to create a pathway to learning and employment through our employer networks and support you to obtain skills and access the qualifications to improve your chances of employment, an apprenticeship, or further training. We also support you with how to work out the impact that employment will have on your finances and benefit entitlement.

## What's in it for me?

Everyone who completes the course will gain the qualification "Level 1 Award in Managing Money". Participants also have access to the Twin local jobs directory where they can access guaranteed interviews with our partner employers, or gain support to apply for employment.

### Eligibility:

- You must be 19+ years
- Must live in West Sussex
- Do not already have a Level 2 math qualification at A\*- C (9\* - 4) grade
