First steps to numeracy

Simplifying numbers to boost life opportunities

Numeracy is a valuable life skill which can improve your everyday life, from understanding household finances, helping children with homework, or something specific to your line of work. Improved numeracy can also help with finding better work.

Boost your confidence

'First Steps to Numeracy' is a free face-to-face course which runs for two days per week across six weeks. It aims to increase confidence and skills in maths and equip you with a sound grasp of the basics and how to apply them in everyday situations.

Perhaps you missed out on getting your GCSE Maths at school, but want to improve your learning as an adult? This is your chance.

What's in it for me?

The course will increase your confidence around numbers, and you will receive a £40 amazon voucher upon successful attendance and completion of the course.

Everyone who completes the course has the opportunity for a one-to-one session to discuss additional support needed to maximise confidence in numeracy skills. Participants also have access to the Twin local jobs directory where they can access guaranteed interviews with our partner employers, or gain support to apply for employment.

Eligibility:

- You must be 19+ years
- Must live in West Sussex
- Do not already have a Level 2 math qualification at A*- C (9* - 4) grade
